

**5th Food Drying Workshop (FDW 2018)
and
10th Low-Field NMR National Conference
(Special focus: Food and Agriculture)**

14/11/2018-16/11/2018

Jiangnan University

Intro

5th Food Drying Workshop (FDW 2018) and 10th Low-Field NMR National Conference on food and agriculture are scheduled to be held, **in order to discuss the latest research progress and application technology.**

This series of conferences is believed to build a platform for discussion of the latest scientific and technological achievements in Food Drying and Low Field NMR, within the territory of the parties (Engineers, Scientists, Technicians, Sales and Marketing personnel).

Venue : Shanmingshuixiu Hotel, Wuxi

Time : Nov 14 to Nov 16, 2018.

Organization

Organizers

Jiangnan University

**Nuclear Magnetic Resonance Instrument
Professional Committee of Analytical
Instrument Branch of China Instrument and
Control Society**

Co-organizers

**College of Food Science, Shanghai Ocean
University**

**Suzhou Niumag Analytical Instrument
Corporation**

**International Joint Research Laboratory for
Fresh Food Processing and Preservation of
Jiangnan University**

Organization

Conference Chairmen

Prof. Min Zhang
Jiangnan University

Peiqiang Yang
Board Chairman of Suzhou
Niumag Analytical Instrument Co.

Honorary Chairman
Prof. Arun S. Mujumdar
McGill University, Canada

Details

Date

14/11/2018-16/11/2018

Venue

Shanmingshuixiu Hotel, Wuxi, China

Theme

**New Food Drying and Low Field
Nuclear Magnetic Resonance
Technology in the Intelligent Age**

Conference Agenda

- **Registration: Nov 14**
- **Conference Registration: Nov 15 morning**
- **Business Forum: Nov 15 afternoon**
- **Niumag Banquet: Nov 15 night**
- **Group Report: Nov 16 morning**
- **Technical Visit: Nov 16 afternoon**

Theme of abstract

1. Basic theory of food drying
2. The drying process of various food materials
3. Innovative food drying technology
4. Equipment of food drying
5. Food intelligent drying
6. The latest development of low field nuclear magnetic resonance technology in food drying
7. The latest application of low field nuclear magnetic resonance technology in meat and aquatic products processing
8. The latest application of low field nuclear magnetic resonance technology in starch and oil detection
9. The latest application of low field nuclear magnetic resonance technology in the detection of massive health (functional food, human metabolism, etc.).
10. Others

Deadline: June 30, 2018

Attendance requirements

1. Conference expense

Category	Before Jun 30, 2018	After July 1, 2018
Research institution representative	¥ 1200	¥ 1800
Enterprise BBS represents	¥ 16000 (Key report)	¥ 20000 (Key report)
	¥ 8000 (Report)	¥ 10000 (Report)
Student represents	¥ 600	¥ 900

2. Lodging and Food are excluded (should be at your own expense).

3. Please contact the hotel for booking (Mr. Yong Fang, General Manager: Mobile - 13093082673) for the special price for this meeting).

Phone: 0510-88681888

Address: No. 999 Li Xi Road, Wuxi
